

## OLYMPIC BAR

Finally, bars worthy of the Legend name.

Machined, tested, and manufactured in the USA. Great strength, sleeve spin and whip characteristics coupled with high quality construction make this one of the best values on the market for an Olympic barbell.

This model features black zinc plated sleeves and a bright zinc plated bar. The knurl has a low-rise for those that don't care for the sharp stuff. Each sleeve features long 16.5-inch plate load areas, a 1-inch thick collar, and dual Oilite bushings that provide the right amount of spin.

This bar exhibits a medium amount of whip during Olympic movements, and carefully selected alloys keep everything strong and straight. LIMITED LIFETIME WARRANTY.
